

CERF Implementation - Interim Update

[Country], [DD.MM.YYYY], [Window]: [Type]
([Application Code(s)])

CERF recipient agencies are expected to keep the Resident and Humanitarian Coordinator (RC/HC) and clusters/sectors informed about progress in implementing ongoing CERF grants. This template shall be used to facilitate an interim update from recipient agencies to the RC/HC on the implementation of CERF grants. An interim update is a light in-country process, with the objectives of facilitating information sharing and coordination and identifying necessary corrective actions.¹ Agencies that received CERF funding, together with cluster or sector leads, shall provide the required information; the various inputs will then be consolidated by the OCHA or RC’s office and shared with the CERF secretariat (send to cerf@un.org). The update can help inform discussions on the progress of implementation of CERF allocations in fora such as inter-cluster coordination group (ICCG) or Humanitarian Country Team (HCT/CT) meetings. Please refer to the [CERF Monitoring Guidance](#) for additional information.

Summary of Implementation Status
[Provide a short summary in bullet form of the status of implementation of the CERF grant based on information provided by agencies and/or clusters in the table below. In particular highlight issues that may require RC/HC and HCT/CT action or attention.]

Actions and Follow-Up
[Capture here any actions decided by the RC/HC, HCT/CT or ICCG following review and discussions of the information on CERF project implementation status]

Project Details and End-Date	Geographic Areas of Implementation and Number of People Targeted	Project Summary and Main Planned Project Activities <small>(Standard project summary prepared by CERF, to be amended as necessary by agencies)</small>	Implementing Partners	Estimated Expenditure ²	Implementation status ³	Project Status Update <ol style="list-style-type: none"> Please describe any challenges that may delay or otherwise affect implementation If the CERF project is not on track, please outline corrective actions to be/being implemented. Is the project expected to achieve the planned targets? Other relevant information
[Agency] [Sector] [Project Code] [\$Budget] [day-month-year]	[target areas] <hr/> Refugees: IDPs: Host population: Other: Total:	[project description from GMS]	[Please list all partners (government, NGOs etc.) sub-contracted to implement specific project activities]	Select range	Select Status	<ol style="list-style-type: none"> [describe challenges] [if not on track outline corrective actions] [indicate expected achievements against planned targets] [provide other relevant information]

¹ For guidance on requests for project revisions, see www.unocha.org/cerf/resources/guidance-and-templates

² Please provide a best possible estimate of current expenditure range for the CERF grant. Please explain low expenditure rates in the Project Status/Field under point 1) or 4)

³ Please indicate the status of implementation of project activities, choosing between “Completed”, “Fully on track”, “Mostly on track”, “Corrective measures required”, and “Not started”.
