

ABOUT CERF

Invest in Humanity

The Central Emergency Response Fund (CERF) is one of the fastest and most effective ways to enable urgent life-saving humanitarian action for people affected by crises anywhere in the world.

HOW CERF WORKS

Established in 2005 as the UN's global emergency response fund, CERF pools contributions from donors around the world into a single fund allowing humanitarian responders to deliver life-saving assistance whenever and wherever crises hit.

CERF has a US\$1 billion annual funding target and is fully unearmarked to ensure funds go to meet the most urgent, life-saving needs.

During emergencies, humanitarian organizations on the ground jointly assess and prioritize needs and apply for funding from CERF. Funds are immediately released if these proposals meet CERF's criteria, i.e. the needs are urgent and the proposed activities will save lives.

CERF disburses two types of grants:

- Rapid Response grants provide support when a new crisis hits, when an existing emergency deteriorates significantly or in response to time-critical needs.
- Underfunded Emergencies grants provide support for critical needs in underfunded and often protracted crises. These are allocated during two rounds per year.

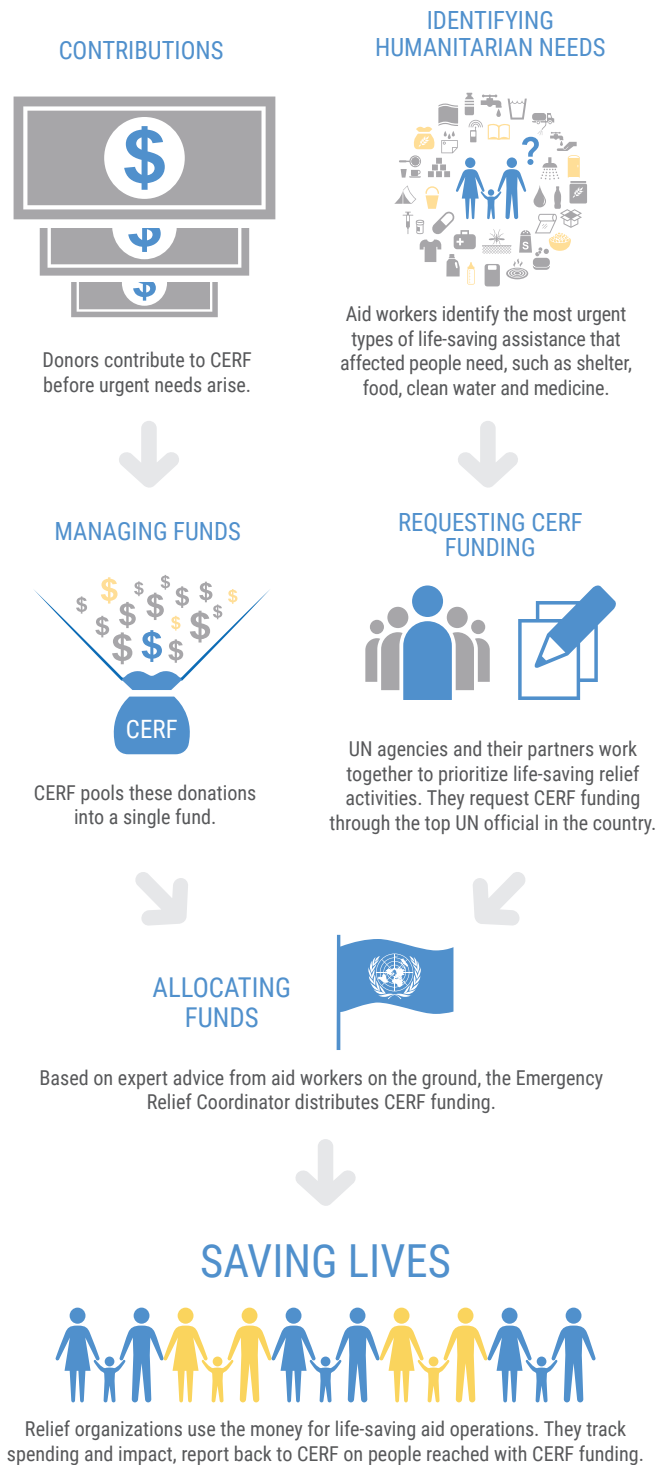

CERF also has a \$30 million loan facility to cover critical funding gaps in humanitarian operations based on indications that donor funding is forthcoming.

CERF allocations are designed to complement other humanitarian funding sources, such as Country-Based Pooled Funds and bilateral funding.

CERF MANAGEMENT

The Emergency Relief Coordinator manages CERF on behalf of the UN Secretary-General and is supported by the CERF secretariat. The CERF secretariat ensures that funds are allocated properly, disbursed in a timely manner, and that the use of funds is reported appropriately and transparently.* The CERF Advisory Group provides policy guidance to the Secretary-General on the use and impact of the fund.

*As a revolving fund, CERF may disburse more or less than its income within a calendar year.

FUNDING RECIPIENTS

TOTAL **\$5.3 BILLION** ALLOCATIONS TO **100** COUNTRIES SINCE 2006

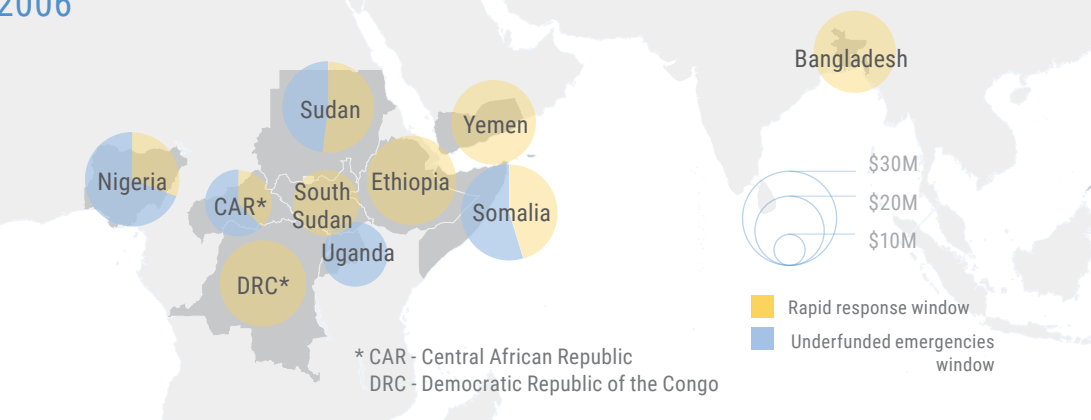

Each year, on average, CERF grants have helped humanitarian partners deliver critical health care to 16.1 million people, water and sanitation to 9.7 million people, food assistance to 7.1 million people, protection to 4.3 million people, agriculture support to 3 million people, and shelter to 1.7 million people.* In addition, the Fund supports services for refugees and displaced people, nutrition programmes, mine action, emergency education and camp management for millions of people in need.

In 2017, CERF allocated \$418 million to support life-saving humanitarian action in 36 countries. Some \$273 million went to kick-starting and scaling up operations in 33 countries and \$145 million was released to bolster aid operation in 13 of the world's most neglected crises.

*Includes averages from 2015 - 2017. As part of ongoing enhancements to the CERF reporting framework and the quality of reports, the CERF secretariat put in place an improved methodology of reporting and processing the information on people reached. Improvements resulted in clearer distinction between people benefiting directly and indirectly from CERF-funded humanitarian action, leading to more accurate figures.

Top 10 recipients country in 2017 in US\$ million

TOTAL **\$245.8M** ALLOCATIONS TO TOP 10 RECIPIENTS COUNTRY

2017 allocations by sector in US\$ million

Food	\$90.6M
