**CERF is one of the fastest and most effective ways to support rapid humanitarian response for people affected by natural disasters and armed conflict. The Fund, which is managed by the United Nations Office for the Coordination of Humanitarian Affairs (OCHA), receives voluntary contributions year round from United Nations Member States and Observers, regional governments, private sector, foundations and individuals. This money is set aside for immediate use at the onset of emergencies, in rapidly deteriorating situations and in protracted crises that fail to attract sufficient resources.**
